

All about Herbs

	<p>Mint- re pot me into a big pot on my own as I grow a lot and need to be contained. Use me for new potatoes/ drinks/salads/lamb dishes/anything else you would like to try with it.</p>
	<p>Chives - I also need to be re-potted into a pot on my own as I also grow a lot. Use with potatoes/fish/ in salads/ omelettes.</p>
	<p>Rosemary - put me in a pot on my own I don't need a lot of looking after water me when I'm dry and feed me in the summer time.</p>
	<p>Coriander- fine with other herbs put me with the others water and fed me regularly and I'll keep growing, use me in curries/stir fry's/salads.</p>
	<p>Dill - fine with other herbs put me with the others water and fed me regularly and I'll keep growing use me with potatoes/sorrel/fish</p>
	<p>Parsley - fine with other herbs put me with the others water and fed me regularly and I'll keep growing use me on potatoes/fish/salads/pastas.</p>
	<p>Red veined Sorrel - fine with other herbs put me with the others water and feed me regularly and I'll keep growing use me on salads/potatoes anything that needs lemony taste to it.</p>
	<p>Thyme - grows low, it needs a sunny place to grow, like Rosemary I don't need a lot of looking after, use me in stews/ roast veggies or roast potatoes/lamb/chicken.</p>
	<p>Basil, it needs a sunny place to grow, use me for pesto's/salads/tomatoes/cheese etc.. Thai Basil – I have more of an aniseed taste to me than normal Basil, use min curries/Thai food etc</p>
